

FEE PAYMENT INFORMATION FOR READERS AND TUTORS AY 2017-2018

Graduate students appointed as Readers or Tutors at a minimum of 25% for the entire quarter are eligible to receive partial fee remission that covers graduate student health insurance (GSHIP), Tuition (formerly the Education fee) and the Student Services fee (formerly the Registration fee). Nonresident Supplemental Tuition (formerly Nonresident Tuition) is not covered.

Effective fall quarter 2011, GSHIP, Tuition and Student Services fee payments are issued at the beginning of the quarter based upon the assumption that the student will work the minimum hours required for fee remission (110 hours). Fee remission will not be paid at the start of the quarter if a student has a registration or financial "hold" placed on his/her account because he/she is in arrears from a previous quarter.

NOTE: If the student does not work the required number of hours by the end of the quarter, the fee payments will be rescinded and the amount must be repaid by the student.

The fee payments are issued to those students whose fees are not paid by another fund source (example: outside agency, federal government, Cal Vet, etc.).
