DEGREE CONFERRAL/ADVANCEMENT/THESIS/DISSERTATION PROCEDURES

All procedures for academic progress are to remain the same, only they will be accomplished remotely.

- Effective until June 30, 2020, any and/or all members of a master's or doctoral committee or the student are to be examined remotely (meaning participation by live video teleconference) for a thesis defense, qualifying examination and final oral examination (the dissertation defense).
- As a reminder, all doctoral committee members are expected to participate in the exam or defense. It is permissible, however for a committee member other than the chair, or outside tenured member to examine the candidate in advance of the exam date. Without exception, both the chair and the outside tenured member must participate during the scheduled time of the exam or defense.

DEGREE CONFERRAL/ADVANCEMENT/THESIS/DISSERTATION PROCEDURES

All forms are to be completed and submitted electronically, with digital signatures. Graduate Coordinators will be facilitating this process.

Remote workshop for dissertation and thesis formatting will be held April 15. More information forthcoming via email.
